Discussion Keeping Quality of Project Outputs & Deliverables

Discussion Keeping Quality of Project Outputs & Deliverables

- The expected **outputs** of the **Let us Think Green** Project are as follows

Discussion Keeping Quality of Project Outputs & Deliverables

Output -1

**Local and Transnational Cooperation
Model on Sustainable clean and green
environment and clean sea, lake, river
and water sources.**

*(Project partners should establish
strong local partnership in their region)*

Discussion Keeping Quality of Project Outputs & Deliverables

Output -2

To raise awareness for a clean and green environment in the regions and project countries and the EU.

(Project partners should use all the media (meetings, Social Media ,online and printed newspapers,publishing post) to disseminate project activities and outputs with local partners in their region and country)

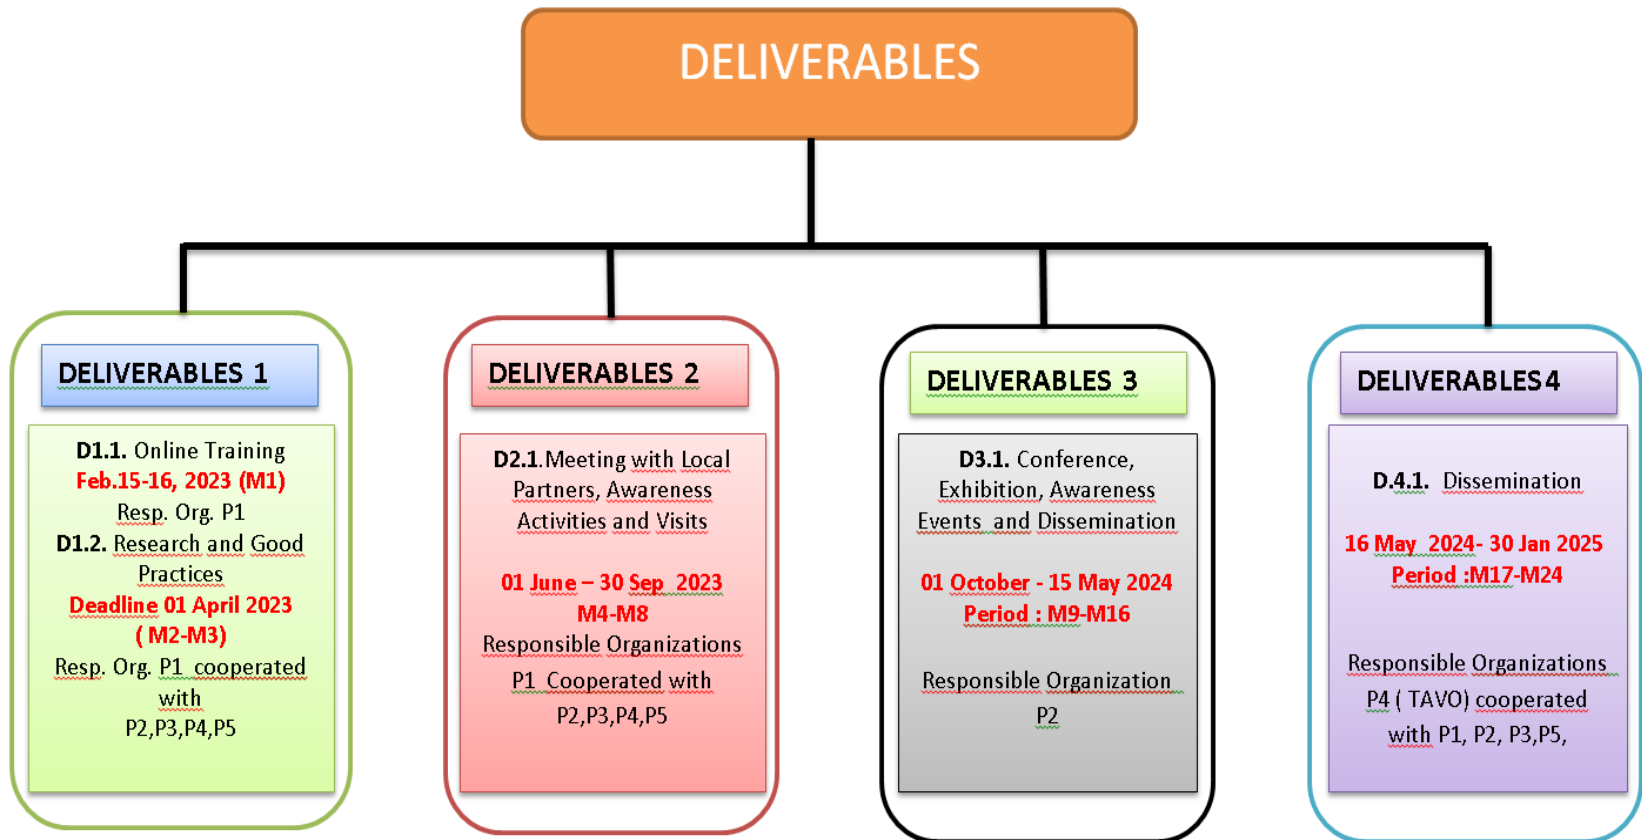

Discussion Keeping Quality of Project Outputs & Deliverables

Output -3

To improve the knowledge and skills of the project participants about the clean and green environment and natural sources

(TEK-SAV and Project partners should support the participants to improve their knowledge and skills)

Discussion Keeping Quality of Project Outputs & Deliverables
