

“LET US THINK GREEN” PROJECT

NEWSLETTER - 2023

PRESIDENT'S MESSAGE

Due to developing technologies, our blue planet is facing threats such as climate change, pollution of our atmosphere and environment, and the gradual decrease of our living spaces. In response to this global threat, international organisations are taking various measures.

The most important of agreements are as follows

1-The Convention for the Protection of the Mediterranean Sea against Pollution, shortly known as the **Barcelona Convention**, is a convention established by the United Nations Environment Programme (UNEP) in 1974 within the scope of the "Regional Seas Programme", which aims to protect the Mediterranean Sea by preventing and reducing pollution caused by ships, aircraft and land vehicles in the Mediterranean.

2-**Kyoto Protocol**, the only international framework for combating global warming and climate change. It was signed within the United Nations Framework Convention on Climate Change. Countries that have signed this protocol have pledged to reduce their emissions of carbon dioxide and five other gases that cause the greenhouse effect or, if they cannot do so, to increase their rights through carbon trading.

3-**Paris Agreement** is an agreement on climate change mitigation, adaptation and financing under the United Nations Framework Convention on Climate Change (UNFCCC), signed in 2015 and entered into force in 2016. As of March 2021, 191 members of the UNFCCC are parties to the agreement.

4-European Union The **European Green Deal**, approved in 2020, is a set of policy initiatives by the European Commission with the overarching aim of making the European Union (EU) climate neutral in 2050.

"**Let us Think Green**" Project is designed and implemented in this context. The aim of the project is to disseminate good green projects / practices in 5 European Union countries to young audiences and officials of environmentally oriented NGOs, public and educational institutions. We have realised 2 of the 4 work packages defined in the project in 2023. We will realise the last 2 work packages in 2024 according to project targets with stakeholders.

You can access all the details and works related to our project from the website

" <https://www.letusthinkgreen.com/> ".

I would like to thank the European Union (EACEA), our project partners, all institutions and organisations and individuals who supported our project activities, and I wish that the project results will be beneficial for both project countries and Europe

“LET US THINK GREEN” PROJECT

NEWSLETTER - 2023

WHY LET US THINK GREEN PROJECT?

It is an Erasmus+ Youth project to protect the natural cycle of our planet, to protect and improve the clean and green environment and to raise awareness among young people.

The project started in January 2023 and will be completed at the end of 2024.

In the project; 5 non-governmental organisations from Türkiye, Italy, Lithuania, Bulgaria and Greece are cooperating in the “Let us Think Green” Project.

What are we aiming for?

To make detailed analyses of good green projects and practices of the project partners within the framework of the European Green Deal on green and clean environment and to disseminate the results to young groups and representatives of non-governmental organisations.

In this context, the project partners are creating local collaboration networks, transfer information about the project work to Green based civil society organisations and young people in their local networks, organising local meetings and disseminating the results through social media pages and participating similar events,

The project work packages are disseminated through both the project website and social media pages and some face to face and online meetings.

Project Partners:

- 1-Tekniker Education Culture Health Foundation (TEK-SAV)-Türkiye, Lead Organisation
- 2-Koinoniki Anaptyksi Neon / K.A.NE- Greece, Partner Organisation
- 3-Kalistratia OdV - Italy, Partner Organisation
- 4-Asociacija TAVO Europa -Lithuania , Partner Organisation
- 5-Walk Together Association - Bulgaria , Partner Organisation

Project Work Packages:

1-Work Package 1, Period : 01 January 2023 - 01 June 2023

Content: Management, Coordination, Online Training, Research and Good Practices

2-Work Package 2, Period : 02 June 2023 - 31 December 2023

Content: Coming together and Awareness Activities in Mugla -Türkiye

3-Work Package 3, Period : 01 January 2024, 15 May 2024

Content : Green Conference & Exhibition , Dissemination in Antalya- Türkiye

4-Work Package 4 Period ; - 16 May 2024, 31 December 2024

Content: Impact , Dissemination Activities in Project Countries and EU

Work package I and Work package II were completed in 2023.

Work packages III and IV will be completed in 2024.

WP1 outputs have been uploaded to the project website, WP2 outputs will be uploaded to the project website until 15 December 2023.

Liselotte A.K. Israelsson
PROJECT MANAGER

PROFILE

Over the past 20 years at management level, I have worked with my Pan-European partners and clients pragmatically and implemented strategic goals in a customer- and result-oriented way. Through my long-term international work experience in large B2B international organisations and in the last years as an Entrepreneur for non-profit organisations and youngsters, I was able to develop a wide range of competences and a broad perspective. This background has helped shape me into a creative, organized, detail-oriented problem-solving entrepreneurial person with strong project management and multitasking skills who enjoys working with many stakeholders and real responsibility to work together towards a win-win successful future with a social responsibility.

WORK EXPERIENCE

International Project Leader Coordi-Nation Europe
January 2009 - present:

The main goal of my organisation, is to give strategic direction and stimulate youngsters with empowerment and entrepreneurship. The projects are EU funded and implemented internationally together with many other European partner organisations.

In the first eight years, Coordi-Nation was focusing on supporting and

"Let us Think Green" Project

Dalyan Meeting and Green Environment Awareness Activities Short Report

In the "Let us Think Green" project, which is being carried out under the coordination of TEK-SAV Foundation, Dalyan Trainings and Environmental Awareness Activities of the project were completed between 22-28 October with the participation of 13 people from 4 countries (Italy, Lithuania, Bulgaria, Sweden) from abroad, representatives of various environmental NGOs from Ortaca and about 43 people (Total 56 people) from young groups and environmental activists in the region.

A- Project Meetings and Presentation (23 – 24 October)

In the 23-24 October 2023 part of the meeting, the activities of Dalyan Köyceğiz Special Protection Area, "Captain June" as a role model personality on the environment and DEKAMER of Pamukkale University, where the turtles are treated and monitored, and the Exemplary Green Projects being implemented in the Project countries within the scope of the project were introduced.

The following Environmental awareness activities were organised within the scope of the ProjectDalyan Programme.

B- Iztuzu Beach Events (25 October)

Role Model Environmentalist "Captain June"'s hut on Iztuzu beach was visited and information about Captain June was received from the Foundation Managers

DEKAMER Centre was visited and information about turtles and their treatment was received from the authorities

A cleaning awareness event was organised at Iztuzu beach. Apart from the participants from abroad, a group of 20 young people from Ortaca Vocational School also participated in the event.

C- Tree Planting Event in Dalyan (26 October)

Within the scope of the activities, 10 trees were planted in a newly created area in the centre of Dalyan with the support of Ortaca Municipality and plaques were attached to the trees as a souvenir of the project.

D- Cleaning of rubbish in Dalyan Canal (26 October)

Ortaca Municipality's garbage collection boat was used to clean the Dalyan Canal. In the afternoon, Dalyan Canal, Köyceğiz Lake and the surrounding natural areas were visited by a rented boat.

E- Thank You Visits and Final Meeting (27 October)

On 27 October, thank you visits were made to various institutions and organisations that contributed to the meetings and events and plaques of appreciation were presented.

In the evening, after the final dinner held at Dalyan Nish Caria Hotel, certificates of participation were presented to the participants from abroad, and plaques to the representatives of Ortaca Municipality and Environmental Non-Governmental Organisations that provided support were presented by the President of the Foundation Mr Cemal KUTLU.

Future meetings and events of the project will be held in Antalya between 26-31 May 2024, and the last Türkiye dissemination meeting and events are planned to be held on from June to November in 2024 at the different regions of Türkiye in cooperation with regional NGOs.

Detailed information about the project can be accessed from the project website and the social media pages of the project.
